- Fast order execution to multiple destinations .
- Straightforward and Easy-to-use (All-in-one) Trade Management.

- Good user experience on Windows 8 With a touch screen.

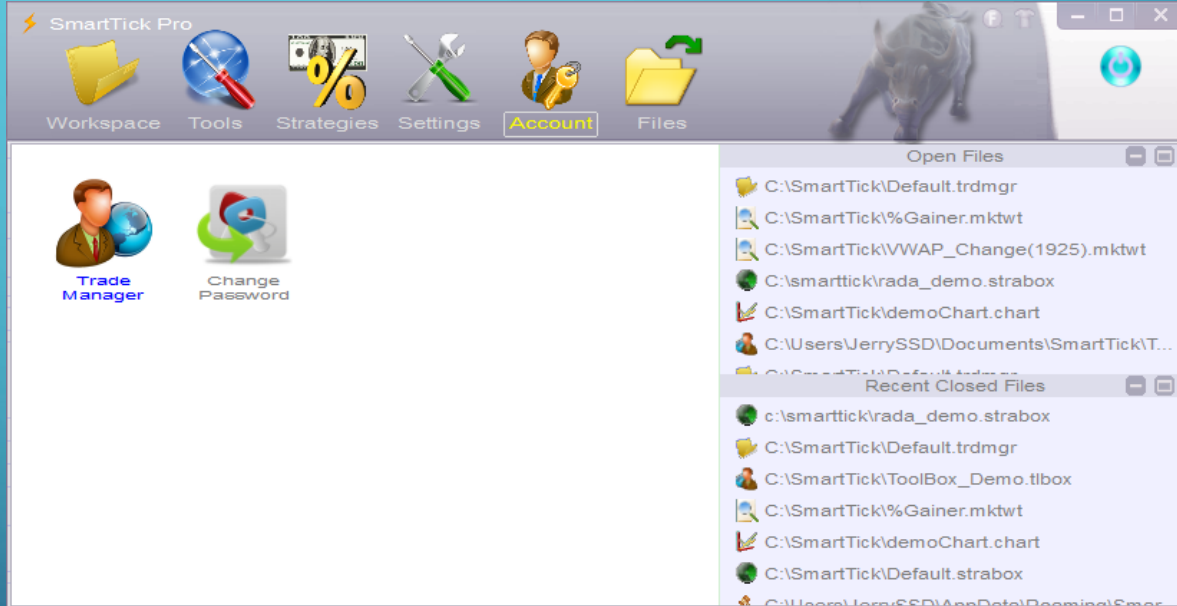

- Multiple Language support Easy. SmartTick Multi-language module supports multiple languages for the world market with only one build, one resource file.

- Effective and strong strategy development ability.

- Strong Security Control
- Using digital signature for user authorization, even the System Administrator in backend has no way to know a user's password (He can only help to reset in case the user forget the password).

Why SmartTick Pro is one of the best for Institutions and professional users?

- Fast and powerful large volume data processing ability on both front-end and back-end.
- Strong strategy development ability based on our Data Center.
- Internal Chat Room(in to do list) with encrypted messages.
- System is designed for  nonstop service.

Workspace Management for multiple independent applications across multiple monitors

- Low cost to use SmartTick.

SmartTick™ Offers Custom Development at rates you just can't beat!!! We can custom build everything the best from an individual market watch list/chart , grey box or complete black box system.

SUMMARY

- Utilising advanced unique multi layer architecture for fast product customization.
- Enabling low latency & high volumes of data display.
- Set up a Data Centre on User's Desktop.
- Up to 8000 symbols can be displayed simultaneously in each of multiple individual windows with real-time sorting and filtering.
- Data display / manipulation is seamless & instantaneous across the system.
- Support Indicator, Formula and Script on Chart and Watchlist, Fully customisable allowing users to define ,monitor & execute their own strategies .
- Fast order execution to multiple destinations.
- Good experience on Windows 8 With a touch screen.
- Unicode support,Multi-language support Easy .
- Effective Strategies development,Strong security control.
- Workspace Management for multiple independent applications across multiple monitors.
- SmartTick Pro is designed for Institutions and professional users.
- Low Cost to use and get the best service.
